DR. D. JAYNE'S FAMILY MEDICINES.

JAYNE'S EXPECTORANT.

THIS invaluable medicine is daily effecting cures of the most astonishing and wonderful cures that have ever been known. All who have need of for Asthma, Coughs, Spitting of Blood, Whooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soreness of the Breast, Difficulty of Breathing, and every other disease of the LUNGS and BREAST, can find a sure remedy in this medicine. BRONCHITIS, a disease which is rapidly sweeping thousands upon thousands to a premature grave, and is pronounced by CONSUMPTION, is always cured by it. The usual symptoms of this disease, are Cough, Sore Throat, Pain in the Lungs or Breast, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a Splitting up of Phlegm or Matter, and sometimes Blood. It is an inflammation of the delicate skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the lungs. The Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a cure is soon effected.

It always cures ASTHMA in a few days. Two or three large doses relieve the CROUP and HIVES of children, in from 15 minutes to an hour; thus, it immediately subdues the violence of WHOOPING COUGH, and relieves the poor babe. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to health by this Medicine.

If this Expectorant is given in the commencement of PLEURISY, INFLAMMATION OF THE LUNGS, or severe RHEUMATISM, in doses sufficiently large, so as to cause a little nausea for some time, it will produce perspiration, and subdue those affections at once.

PRICE $1.00.

Tonic Vermifuge.

WORMS in children are more to be dreaded than children, and more are so fatal to them as Worms. Unfortunately, children are seldom free from them, and as they mistake the symptoms and attribute every other complaint, they often produce alarming effects without being suspected. Children may be free from worms for a long time, but by their irritation egg worms will develop themselves in the intestines in large balls, and on stretching the bowels, need frequently the direst, cripping convulsions, and sometimes death. This Vermifuge will be found THE DESTROYER OF WORMS, which will very soon destroy the worms so as to prevent a return of them. PRICE 50 cents.

JAYNE'S CARMINATIVE BALSAM.

This is one of the most efficient, pleasant and safe Cordials ever offered to the public, for the cure of the various derangements of the Stomach and Bowels, and the only certain remedy for the Cholera Morbus, Cholera Infantum or SUMMER COMPLAINT; and in the above and following diseases, it is unrivalled, viz. Diarrhœa, Dysentery, Diarrhœa or Looseness, Cholera Morbus, Summer Complaint, Griping or Griping Pains, Sick and Nervous Headache, Heartburn, Waterbrash, Pain or Sickness of the Stomach, Wind, Spasms and Colic, Costiveness, Piles, where it passes through the body unchanged; Want of Appetite, Restlessness and Indisposition to Sleep, Wind in the Bowels and Stomach, Hysterics, Cramp, Nervous Tremors and Twitches, Hypochondria, Palpitation, Melancholy and Lowness of Spirits, Paralysis, Nervous Debility, Trying of Infants, and for all *Bowel Affections and Nervous Disorders.*

PRICE 50 cents.

Hair Tonic.

NO EXCUSE FOR A BALD HEAD. Since the important discovery of DR JAYNE'S HAIR TONIC, every person may now have a head of hair, if the roots are not dead, or very, very old indeed—certainly, have their hair restored again in a faithful and preserving application of this celebrated HAIR TONIC.

Please to read without prejudice the following communication, which, in addition to hundreds of others, should convince those who have lived on the doubtful expectation of JAYNE'S HAIR TONIC.

HAMILTON, Feb. 15, 1840.

Dr. D. Jayne—Dear Sir: I must say my hair is now restored, for it was so that it appears to be in a rapid process of restoration so easily reasonably as expected. Some time last spring, I noticed a decided change was manifest over the bald part of the head, which, at first, appeared like a little down, but, on further inspection, it appeared, much like, mottled, like the down of an infant, appeared, and continued to increase, and I have had it cut two or three times, and it now appears to be in the third button, but, have been a good deal irregular in the use of the Tonic from the first, and, consequently, have not been the effect as I expected it would have been in otherwise would have been.

Yours, &c. the use of the Tonic with little or no pain, that it would ever be successful on my head, though I felt entire confidence in your statements of what it had done for others. And I was so much surprised at the effect, when I saw the effect, I was troubled to know if the hair had been secretly, if not cutting, or being long in the time. I have been, for some time, in the habit of cutting off the hair of some who wished to buy, for, I have, for very, very long, though quite thick, I am flushed with vanity, have worn long surtouts, in the fashion of the day, and have been interested in the papers. I am constrained to believe that your Tonic is a sure, safe and speedy remedy for the hair, and, no doubt, at least on some people, but if you, and no matter, at least on some people.

REV. W. LAYTON.

Prof in Hamilton Lit. and Theological Seminary, Madison County, New York.

Jayne's Sanative Pills.

These Pills are an unerring, safe and sure purge as this Pill, and are exceedingly useful in Dyspepsia and obstructions of the liver. Persons taking them cannot catch cold, or be exposed without fear of injury, and, what is of infinite advantage, as long as the use of mercurial Cathartics, so frequently used in derangements of the liver, is entirely unnecessary.

These Pills may be taken at all times, and at least a box is nearly all a family ever needs. Persons have given a favorable description of the properties of all obstructions of the Liver, Spleen, Kidneys, Bowels, and all other organs of the system, such as Dyspepsia, Intermittent, Remittent, Bilious, and every other form of Fever—Jaundice and Loss of Appetite, Costiveness, Pain in the Side, Flatulency, Colic, &c. &c. These Pills are rapidly coming into universal public notice, greatly effecting the entire change in tone of the stomach, and, in fact, every thing that is necessary to be done, they do. They are very mild in their effects, and, in fact, every disease where an aperient or purgative medicine is required, they will be found an excellent remedy.

☞ For a full list of the numerous and distinguished cures of DYSPEPSIA POSITIVELY CAN BE CURED by persevering use of these medicines, see Pamphlets.

They are expressly prepared to be used as an Aperient, when purging is necessary, while using the Expectorant, in the treatment of all affections of the Lungs, which are often attendant on some of the diseases of the Breast.

Prepared only by Dr. Jayne, Philadelphia.

Sold by Wholesale and Retail, by SMITH & FENNO, Bookseller, 14 Water Market Square, Bangor.

BRANDRETH'S PILLS.

THE great question, *rich Blood, pure Blood,* have scientific basis. The rich and pure Blood many have attempted to cast on these questions, some, most, could upon themselves to say as that Truth will prevail.

Brandreth's Pills.

The effect of this celebrated medicine is to purify the blood; to convert the poor, corrupt blood into healthy, rich blood. And it is because this pill is that they have been so steadily sought after by classes of our community, and so universally used. And it is because of the power Brandreth's pills now known to possess as health restorers that they are sought so popular.

They cure all affections, simply because they make the blood pure—abstract out of it those qualities which produce disease, and give to it those qualities which produce health.

Now every solid part of the human frame is made from the blood, and the food we eat is converted into blood to supply the waste our body is continually sustaining. So in the ordinary course of nature we manufacture our entire bodies every 7 years from the blood taken into our stomachs. Now the blood made in this stomach of ours is very impure, occasioned by some cause or other; it is therefore the province of the Cathartic pills to make impure blood, and if so cannot be healthy, they suppose that any two three or four pills taken into large bowels and stomach, will remove the impure food for a long period, but this is not the case, the blood made from such food for a time or two is healthy, but, in consequence of the food being so unhealthy, or great attention to a particular part, and occasion food for a time, the blood made from such food is supplied to the system.

But let Brandreth's Pills be used daily into the stomach, or, in other words, let the food we eat be of a healthy character. We eat, then, healthy food, and healthy blood is made, and, consequently, the food we eat is healthy, and, consequently, healthy food is made, and, consequently, healthy food is made, and, consequently, healthy food is made

fully fifteen hundred and their great demonstrations as they moved along evinced the depth and enthusiasm of their feelings

After the arrival of the full procession on the ground the District and Senatorial Conventions filed out and were escorted to their respective places of meeting and the mass or satisfying convention proceeded to organize by the choice of Hon Edward Kent, as President, and Gen Isaac Hodgdon of Corinth, Joseph Doane of Orrington, Joshua Lane of Hampden, P. P. Furber of Milo, Samuel Butman of Plymouth, Thomas Lindsay of Lincoln, Thomas S. Patten of Guilford, E. T. Merrill of Atkinson, Daniel White of Orono, C. P. Chandler of Sangerville, Stephen Bean of Lee, and Lysander Cutler of Dexter, as Vice Presidents, and Daniel T. Jewett, Esq., of Bangor and Stephen Lowell of Sangerville as Secretaries.

The following gentlemen were chosen a committee for the purpose of adopting resolutions expressive of the sense of the Convention.

Geo. B. Moody, Bangor.
Elias Dudley, Hampden.
R. K. Bradbury, Levant.
J. Washburn, Jr., Orono.
W. C. Hammett, Howland.

After the organization of the Convention Mr. Kent as President, addressed the people in its usual massive and argumentative style. He cheered them with the words of hope that even old Maine might, if she would be the bright star of the glorious constellation of '44 whose lingered names will shine hereafter in the Clay constellation.—He said, that within the past few weeks he had visited many portions of the State and met very many of the Whigs in their counties and felt the right spirit pervaded every man among them that every one of them was determined to do his duty at the polls.—he made a very clear exposition of the operation of the Tariff and shew very plainly the difference between a revenue and protective system and urged home his arguments upon the judgement of the people with irresistable force, he spoke some half of three quarters of an hour very satisfactory to the convention and upon closing announced a good Whig song by the Choir. They Sang the "Bonnie Clay Flag" which was received by a hearty round by the people who love a good song occasionally as well as a speech. After the song the President introduced Francis H Upton Esq., of Louisiana. Mr. Upton is recently from the South and he commenced his speech with an account of his journey North and the spirit and feeling of the people up and along the banks of the Mississippi, and Ohio rivers. He said he found the Whigs every where aroused, the same spark that glows so brightly in the Wigs of Maine, was burning in sympathy with the Whig enthusiasm of the South and West. He spoke of the dictation of Southern locofocos to the North and the tame submission of the Northern democrats, that the political issues that are made up by the Locofoco party come from the South and Southern locofoco leaders and are forced upon the party in spite of Northern remonstrance and Northern interest—he went into the Baltimore Loco convention and in going his history shew the triumph of the South over the North. He exposed the manouvres and chicane and Southern politicians in rejecting Martin Van Buren and nominating Mr Polk simply because Mr Van Buren was opposed to the annexation project and Mr Polk was the supple tool of the South and would without hesitation obey any dictate of the leaders—he alluded to James K. Polk's character as a man, a statesman as candidate for the Presidency and in a most scathing part of his speech he shew up the action, the political partizanship of Polk in the 24th Congress, when his casting vote disfranchised the whole State of Mississippi—of his ruthless desecration of the Constitution and the laws of the Country in that act and blowed to atoms the locofoco humbug that the Whigs were in favor of the a restriction of the right of suffrage and hurled back the charge upon them with truth and effect and I proved it by Polk's own acts—he took up the annexation of Texas and denounced the origin and motives of the conductors of that iniquitous scheme, here again he exposed the dictatorial spirit of Southern Hotspurs and laid open to the bone the motives for this project—the perpetuation of slavery and the extention of our country over a soil polluted with this revolting institution with the ultimate purpose of dissolving this glorious confederacy and founding for themselves a Southern republic the recklessness of the originators who are perfectly willing to plunge the country into a war with Mexico—violate nation honors and integrity, break down the obligations of treaty faith and pay the untold millions of her debts—as for the loco argument that an equivalent was to be found for this in her public lands he blowed it Skyhigh. In fact the whole domain of Texas has been alienated twice over and that the incumbrance upon it now were double enough to consume the whole—he then addressed the abolition party and clearly pointed to them their duty in this election and happily illustrated his arguments very lucidly by an allusion to the patent abolition hat-box, whose bottomless appearance placed as it was immediately over the Polk and Texas hat-box was very truthful. Mr Upton is a very eloquent and finished speaker and his remarks were highly gratifying to the audience. After his speech, the convention adjourned for dinner with an intermission of an hour. At the expiration of that time they again met, and after the meeting was called to order Gen. Hodgdon of Corinth the chairman of the Congressional Convention made a report to the ratifying convention that, they had unanimously nominated Abraham Sanborn Esq., of Levant as their candidate for Congress which nomination was received by the mass with by a hearty response and a pledge to sustain it at the polls. Elias Dudley Esq., of Hampden Chairman of the Senatorial Convention reported the name of Samuel Stetson of Stetson as Aaron A. Wing of Levant, and James Sanders Jr, of Passadumkeag as the cand dates for the State Senate, Abner Taylor Esq., of Bangor, For County Treasurer and Samuel Butman Esq., of Plymouth, for county commissioner. These nominations were unanimously ratified and confirmed by the Convention. The committee chosen for the purpose of drafting resolutions expressive of the sense of the convention through their chairman Geo. B. Moody, Esq. submitted the following which were heartily concurred in by an entire unanimity.

Resolved—That heartfelt attachment to the glorious Union of these States, strict fidelity to the Constitution, respect for law, reverence for established Faith pledged in National Treaties, love of order, horror of anarchy, and abiding faith in the intelligence of a free people, deeply implanted in the minds of the Whig Party, have produced their legitimate and abundant fruits in our pure principles and measures and the imminent measures they advance.

Resolved—That while the Whigs recognize in unanimity reverence the effective Providence which in the death of President Harrison snapped their hopes, rebuked their pride and poisoned the cup of triumph in their principles they accompany grounds that our power is strongest in the Counsels of the Nation fail in the Tariff measures to the 24th Congress a foundation was laid for the adoption of that principle of American industry and the rise, thus growing and prosperity of our American People.

Resolved—That the Whig Party proud of their principles and frankly proclaiming them, are maintained in the field against a Party who rank conscience stricken from the avowal of their creed. While it cannot but be a matter of observance to Southern dictation, so deep have their consciences embodied the doctrines of the Southern democracy, that the Party in Congress of Texas, carve out as many States after a breach in favor of the one, are governing about the other and with a force unanimity and unworthy firmness in those States has made to the Whig doctrine of protection and discharge the noble cause to which they profess to be opposed, by passing the Tariff.

Resolved—That the Policy of raising the amount of revenue necessary for carrying on the National Government by duties on the Foreign goods we imply, discriminating for the protection and encouragement of the industry of the Country, is the only policy by which we can save our people from a virtual tribute to foreign legislation.

Resolved—That the benefits of that Policy are not confined to any one class or portion of the People, but to the interests of all the industrial classes of the Country, and that its operation has fostered a diversity of occupations and pursuits and opens almost innumerable channels into which the boundless energies of our country and business carrying riches and fertility where they flow; and that so doing, on the one hand it increases the demand for manufactured products, and at multiplies the numbers and wages of those who consume, and encourages that manufacturing competition which destroys monopoly and keeps down prices. On the other hand it checks competition in the agricultural interest and makes sure a home market for the surplus products of the farmer.

Resolved—That the Plan of raising Revenue by direct taxation which is the legitimate result of the reasoning of Southern advocates of Free trade, and the policy of the Democratic Party in Congress at a Tariff in which our immediate wants should be more for revenue only, are alike objectionable in principle, and would be productive of results, since the one would admit all goods free of duty, and the other would tax only those articles which cannot be manufactured in the United States, and the operation both would shire prostrate the capital and labor of the Nation and drain the country of its money, to enlarge the business of the British Manufacturer and to pour the hoards of the English Capitalist.

Resolved—That James K. Polk is shown by the treasonable course of his speeches and his votes while a Member of Congress, by his letters and his addresses to the People of Tennessee, while a Candidate for Governor, and by the whole tenor of his public life to be the decided and unrelenting enemy of the Whig Policy of Protection and the Whig Party of the country, and that the principles of his opinions on the subjects were otherwise doubtful, the enthusiastic and rapturous tones in which his nomination to the Presidency was greeted at the Baltimore Convention, by the Free trade representatives of the South and Southern Democracy, and tribute their best efforts to secure the election of the candidates by them presented for the suffrages of the people, to the offices for which they have been severally designated.

[Reported for the Daily Whig & Courier.]

Proceedings of the Maine Annual Conference of the M. E. Church.

Eighth day Wednesday Aug. 21, 1844.

Conference opened at 8 o'clock with the usual religious services by D. Hutchinson.

The stewards or monitory committee of the conference which was adopted, voted to defer the consideration of the case of B. F. Hilton which was made the special order of the day yesterday for this morning, until it be ascertained who are to be received on probation.

Took up the case of C. C. Cone, his character passed and he was located at his own request.

Took up the case of D Stimp on whose character passed and he was continued in a superannuated relation.

Conference proceeded to take up the question "Who are to be received?" as probationers for membership in the body, and the following persons were discontinued, B. M. Mitchell, J. V. McKeen.

Took up the examination of the characters of effective elders connected with the conference, and eight were examined and passed—J. Harrington passed and was superannuated. H. L. Lipscomb passed and was located. R. H. Ford passed and superannuated. H. N. Mecomber passed, and was located at his own request. M. Hill passed and received a superannuated relation to the conference.

Took up the question "Who are admitted on trial as probationers for membership in the conference, and the following gentlemen were severally reported of high character, C. H. Fitts, Wm. H. Foster, Wm H. Crawford, Jesse Keith

Took up the case of Goshen Greely who was formerly reported of good character in a superannuated relation to the conference.

On motion voted to take up the report of the Committee on Odd Fellowship.

After listening to remarks against the association from D. Copeland, G. Webber and others and among the consideration of the report the hour of adjournment having arrived conference adjourned to meet at 8 o'clock, P. M.

Bangor, Aug 21, 1844. M HILL.

Indiana.

The news from Indiana looks more favorable than yesterday. Instead of two majority we would scarcely dare hope for.

We find the following in the Globe, quoted from Chapman's paper, the Indiana State Sentinel. (locos):

We give below nearly complete returns of the election of members to the legislature. The Senate stands, as last year, equally divided, and the casting vote of the president in our favor. In the House of Representatives, the whigs have gained, so that they will have probably six majority—three members more than half—the whole number being 100.

Missouri Election.

Legislature—Twenty-three counties have elected 31 Whigs and 7 Locos, to the House—Whig gained 14.—No further returns of vote for Governor.

The Whigs it will be recollected run no candidate for Governor of members of Congress The contest is for the legislature

Kentucky.

We have returns from 67 counties, in which Judge Owsley's majority is 8,000. This will not be essentially varied by the returns of the remaining counties.

LEGISLATURE.—The vote for members of the Legislature is the most accurate index of popular sentiment, and this body will be more overwhelmingly Whig than in any previous year. As far as we have heard, there have been elected fifty nine Whigs and twenty seven locos, only three to one!

The Popular Vote in Indiana.

Although it is impossible, from the number of candidates run in several counties, and the splits almost every where, to make up a correct table of the popular vote, yet whatever comparison can be made, it is found to be in favor of the Whigs. The Cincinnati Atlas has table of the official returns in 25 counties, and shows that the Whig gain on the popular vote these counties is 2,000. A gain in the country in the rest of the State, would give the Whigs in county of five or six thousand."

John Tyler Declined.

We have been informed that at a meeting of the friends of John Tyler, held on Saturday night at the American House, in this city it was resolved to take no part in the proceedings. Vote to proceed to ballot for candidates for Senators, and Dr Byron Porter and J. W. Carr, were chosen a Committee, to receive and count the votes.
